MAIN OFFICE AND FACTORY - KEYSER, W. VA.

May 12, 1953

Mr. Edward J. Czerniak  
Czerniak's Hardware  
289 East Street  
Ludlow, Massachusetts

Dear Mr. Czerniak:

In checking through our sales records we notice that you haven't given us an order for a considerable time. Our organization is greatly interested in serving you satisfactorily, so we are especially anxious to know why you have not ordered.

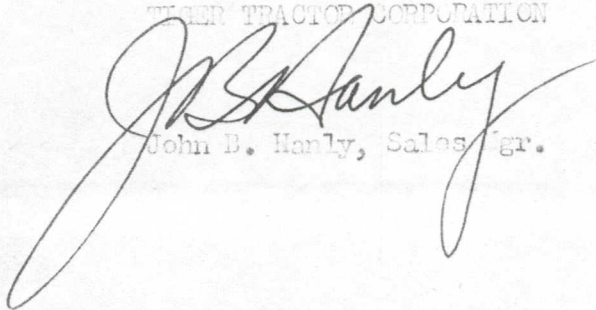

Our new Model 883 Tiger has all new attachments and employs the famous Snow-Nabstedt Automatic Reversing Transmission which incorporates all of the following in one single compact transmission unit: - - - one lever for gear shift, clutch and brake and also combines forward - neutral - reverse and reduction. The Model 883 should be of much interest to your customers and profitable for you to handle.

We value your business highly and it occurs to us that we, in some manner, have not served you properly. We would appreciate your using the back of one of the enclosed sheets for your comments and mail it to us in the post-paid envelope.

We sincerely hope that we may find your name on our active list within the next few days and we will look forward to renewing our pleasant relationship with you.

Cordially yours,

TIGER TRACTOR CORPORATION

  
John B. Hanly, Sales Mgr.
